Profile

Final-year undergraduate focused on backend and distributed systems, with production experience shipping SaaS features. Strong foundation in DSA and core CS fundamentals with hands-on experience building transactional systems.

Experience

Software Engineering Intern GoBasera Oct 2025 – Dec 2025

- Built and **shipped full-stack features** for a multi-service **SaaS platform** using **NestJS, TypeScript, React, PostgreSQL, and Docker**, collaborating closely with the **Founder & CEO** on production releases.
- Reduced **Docker Compose build time from 1+ hour to under 30 minutes** by resolving dependency and health-check misconfigurations.

Web Developer Electro Infinity Club Jun 2025 – Sep 2025

- Optimized the official club website using **React.js**, improving page performance and cross-device accessibility.
- Implemented UI and performance improvements that **increased event registrations by approximately 40%** across club events.

Projects

PayFlowX – Transactional Payment System (*NestJS, TypeScript, PostgreSQL, Prisma*) [GitHub](#) Feb 2026

- Built a **transactional payment engine** with **database-level idempotency** and **ACID-compliant operations** to ensure safe retries and prevent duplicate charges.
- Designed an **asynchronous settlement workflow** with a **one-to-one Payment–Settlement model** and implemented a **reconciliation module** to audit ledger consistency.
- Optimized query performance using **indexed high-cardinality fields** and added **structured logging** for end-to-end payment traceability.

Resilient Real-Time Live Polling System (*Socket.io, React.js, Node.js, MongoDB*) [GitHub](#) Jan 2026

- Built a **real-time multi-user polling system** with server-synchronized timers, live vote aggregation, and **state recovery across refreshes and late joins**.
- Prevented **race conditions and duplicate voting** using server-side validation and database-level constraints.

Technical Skills

Problem Solving: Solved **500+** LeetCode problems; (**Active in weekly contests**)

Programming Languages: Java, JavaScript, TypeScript, Python

Full-Stack Development: Nest.js, React.js, Next.js, Node.js, Express.js, REST APIs, HTML5, CSS3

Databases: PostgreSQL, MongoDB, SQL, MySQL

Computer Science Fundamentals: Object-Oriented Programming (OOP), DSA, DBMS, OS, Computer Networks

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code

Education

Wadia College of Engineering Pune Pune, India
Bachelor of Engineering – Electronics & Telecommunication Engineering 2022 – 2026

Certifications & Activities

Networking Basics & Operating Systems - Cisco Networking Academy

National Service Scheme (NSS) Volunteer 2023 – 2025

Organized, coordinated, and actively participated in **National Service Scheme (NSS)** initiatives including **blood donation camps, cleanliness drives, and a 7-day rural service camp**.
